# THE BEACON

Official Newsletter of HCRN and Our Rebuilding Efforts

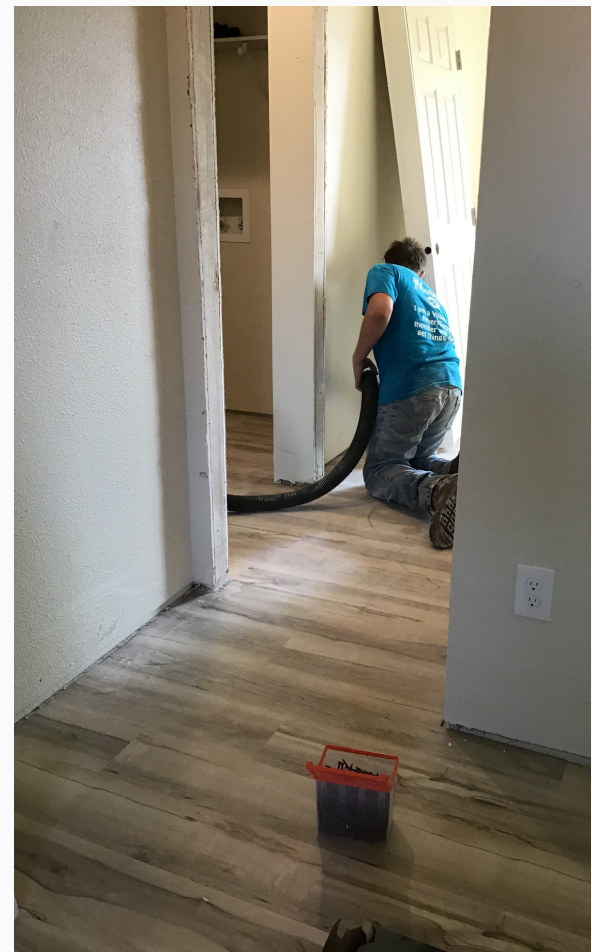

## Completing Rebuilding in Shasta County

Thank you to all of our donors, partners and volunteers who worked with us in Shasta County to help in the recovery of the Carr Fire of 2018.

Your efforts will have a lasting impact in Shasta for years to come. But the fact that we were able to continue building during the pandemic is a testament to your belief in HCRN's mission.

Under normal circumstances, we would have invited community leaders together to hold a home dedication and welcome each homeowner to their rebuilt properties. Thankfully, we do not need a ceremony to celebrate people coming home from disaster!

Thank you all, again, for being part of these victories as we continue to work for the full recovery of Northern California. Let's keep Rebuilding Homes and Restoring Lives together.

A volunteer cleaning the interior of a rebuilt home before beginning the next part of finish work.

## Prayer Request for Paradise

This month we're continuing to pray for wisdom, guidance and for the right partner to come along side of HCRN as we pursue a larger permanent volunteer housing space.

Right now, we're blessed to be operating in a facility that allows small groups of volunteers to be safely housed. However, the facility we're seeking out would allow more than just HCRN to serve the community of Paradise as they continue to recover from the Camp Fire of 2018, as well as the North Complex Fire of 2020.

Your prayers and support are needed, and we thank God for the works he will allow us to do in Northern California. Hear from Paradise leaders in a video on our Facebook page!
